

Download old Versions of GECAMed.

This page contains old installers for the GECAMed software.

To install the current Version of GECAMed please go to: [Download GECAMed](#)

These Installer Versions are only provided to reinstall an older version in order to rebuild GECAMed after a fatal system failure, e.g. after a disc crash. Do not upgrade a functioning GECAMed system to some newer version with those installers.

To upgrade you should always use the [latest Updater](#)
