

# Where are the client logfiles?

When starting a GECAMed client it will write some logfiles to your computer. These can be found in the following directory

Platform	Property File Location
Windows (bis XP)	C:\Documents and Settings\USERNAME\gecamed\
Windows (seit Vista)	C:\Users\USERNAME\gecamed\
Linux	~/gecamed/
Mac OS X	~/gecamed/

The files are called GECAMed.log.N.M wher N and M are numbers. Look always at the latest logfile to see recent error messages.
