

GECAMed Support

Technical support for GECAMed is provided by professional support companies. These companies not only install and maintain GECAMed, but they can also provide you with hard and software support for your entire medical office. The following support companies are currently offering support for GECAMed:

2018/01/03 16:02

If you are interested in a GECAMed installation on Linux with secure remote access and encrypted database you can contact

Dr. Alain Louge (PhD)

email: louge@pt.lu

GSM: +352 621 45 34 20

For project partners, LIST offers remote TeamViewer support.

You can download TeamViewer here:
